

Wow! Can you believe that our year on the Pirate Ship has come to an end? We've looted and plundered so much learning! As the crew sails off on their summer voyages, they should continue their piratic skills! And have fun doin' it!

Multnomah County Library has a great summer program for keeping up reading skills and even getting loot for it! Sign up at your local library!

Keeping up math skills over the summer is paramount! Learning Palace has some terrific and inexpensive practice books that would be helpful. Summer Bridge and SkillSharpener books are especially well-paced for consistent summer practice.

I've loved being your Pirate Queen. I'll look forward to seeing you, my scurvy crew, as you sail by on your way to the lands of Junior High. Until then, Yo-Ho!!
